Engine installation-Mustang

Step 1 Make sure the power switch is on OFF position.

- This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:
- 1) This device may not cause harmful interference, and 2) This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply within the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in residentia installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications However, this is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- · Reorient or relocate the receiving antenna.
- increase the separation between the equipment and receiver. · Connect the equipment into an outlet on a circuit different from that to which the receiver is needed.
- Consult the dealer or an experienced radio/TV technician for help. • Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment,

Colors & contents may vary.

Please keep this packaging for future reference. Conforms to the safety requirements of ASTM F963 and EN-71.
